Professional Summary

Computer Science graduate with hands-on experience in full-stack development using Java, Spring Boot, React.js, and MySQL. Strong foundation in DSA, OOP, DBMS, Operating Systems, Computer Networks, and Software Engineering

Education

Graphic Era University

B.Tech in Computer Science and Engineering - CGPA: 7.17/10

2022–2026

Dehradun, Uttarakhand

The Montessori School

I.S.C Science (XII) - Percentage: 71.2%

2022

Dehradun, Uttarakhand

Experience

Consulting Intern | Panacea Infosec Pvt. Ltd.

Jan 2026 – May 2026

- Supported the Consulting & Compliance team in documentation review, compliance tracking, and operational activities.
- Assisted in organizing and maintaining audit-related documentation aligned with information security and regulatory requirements.
- Collaborated with team members to streamline documentation workflows and improve compliance tracking processes.

Projects

Hotel Booking Management System

2026

Tech Stack: Java, React.js, Spring Boot, MySQL, RESTful APIs, Axios, Postman

- Designed and implemented RESTful APIs and CRUD operations for reservation management, integrating frontend and backend using Axios.
- Designed relational database schemas, optimized MySQL queries, and utilized Postman for API testing, debugging, and endpoint validation.
- Implemented input validation, exception handling, and modular service-layer architecture to improve application reliability and maintainability.

Hinglish Compiler

2025

Tech Stack: Python, Compiler Design, Graphviz, Tkinter

- Developed a custom Hinglish-based programming language compiler implementing lexical analysis, parsing, AST generation, semantic analysis, and Python code generation.
- Built a recursive descent parser and semantic analyzer for syntax validation and error detection.
- Implemented support for variables, arrays, loops, conditional statements, and custom language constructs.

Technical Skills

- Programming Languages: Java, Python, C++, C, JavaScript
- Backend Technologies: Java, Spring Boot, JDBC, RESTful APIs
- Frontend Technologies: React.js, HTML, CSS, Bootstrap, FXML
- Databases: MySQL
- Tools & Platforms: Git, GitHub, Version Control, Linux, Postman, VS Code, IntelliJ IDEA

Achievements

- Participated in a college-level Hackathon and developed a Facebook Clone Application as part of a team.
- Participated in Co-dev organized by Graphic Era Hill University.
